

Observing Aids from David Chandler Company

At David Chandler Company, our printed products focus on the needs of the beginning observer. The Chandler philosophy is that the beginner will not be a beginner for long! We want to nourish the enthusiasm of the beginner with solid, helpful reference materials.

All of our observing aids are clear, accurate, and reliable. They are designed to help the beginner become knowledgeable and proficient as quickly as possible.

We are excited that the American Association of Amateur Astronomers is able to make our products available to you through their AstroMax Online Store. We hope they will point you on your way as you begin to explore the universe.

David and Billie Chandler

PS: Be sure to take a look at the AstroMax Introductory Astronomy Kit, which includes our First Light Astronomy Kit, a pair of Bushnell Powerview 10x50 Binoculars, and full membership in the American Association of Amateur Astronomers.

It's a great way to get started in astronomy for less than \$100! It makes a great gift, too.

The American Association of Amateur Astronomers teams up with Bushnell Sports Optics and the David Chandler Company.

The Night Sky — Special Low-distortion planisphere, available for various latitude zones in English and Japanese. Select a planisphere according to your observing latitude: 50-60 Degrees N, 40-50 Degrees N, 30-40 Degrees N, 20-30 Degrees N, and Southern Hemisphere.

Large Planisphere - \$10.00

Small Planisphere - \$6.00

Exploring the Night Sky with Binoculars — A simple but thorough introduction to observing the sky at night.

Exploring the Night Sky - \$9.00

Sky Atlas for Small Telescopes and Binoculars — An atlas featuring nearly 200 objects selected for visibility in small telescopes and/or binoculars.

Sky Atlas - \$15.00

First Light Astronomy Kit — All of the above and more at a tremendous savings. Select a kit according to your observing latitude: 40-50 Degrees N, 30-40 Degrees N, 20-30 Degrees N. Southern Hemisphere version not available.

First Light Kit - \$30.00

The Astronomer's Journal — An Observer's Log & Sketch Book. Newly Revised and Updated by the AAAA. This 8x11 inch 100 page Journal is the Essential Tool for all Observers.

Astronomers Journal - \$10.00
